

Only a monthly report that has not been filed (submitted) can be edited or revised to accept any corrections or new sales information in the SIT Portal. If a monthly report has already been filed, then the dealer must file a supplemental statement to revise the sales for that month by mail.

IMPORTANT: Use the pre-formatted templates to enter your sales information. [Click to download the Templates.](#)

- 1) You must provide all information under each of the titled column in the spreadsheet, including the estimated taxes due for each sale entry.
- 2) Rename your new file under "Save As".
- 3) The new file must be saved as .CSV (comma delimited) file format.

Select the Import Month

1. If the month has a ✓ under the "Submitted" column, then that month's statement has been filed, and online revision is not allowed.
2. "Action" column:
 - "edit" - allow revision to the monthly report.
 - "view" - the monthly report has been closed and cannot be revised online.
3. Click to select "edit" for the month corresponding to the dealer's file to be imported.

Select Import File

Click "Browse" and select your sales file to be imported.

Note: Please make sure you use the pre-formatted template to record your sales. Also, make sure the file is saved as a .CSV (comma delimited) file. (Excel or other types of file format will not work.)

The screenshot shows the 'SIT Sales Importer' interface. At the top, there is a header for 'ANN HARRIS BENNETT Tax Assessor-Collector & Voter Registrar' and 'Special Inventory Tax System'. Below the header, there are two panels: 'Account Information' and 'Selected Year/Month'. The 'Account Information' panel displays details for 'APPLE TAX CARS' including address, phone, dealer number, and CAD number. The 'Selected Year/Month' panel shows '2018' and 'Sep'. Below these panels is a 'back to Sales' button. At the bottom, there is a 'SIT Sales Importer' section with a 'Select a comma-separated file:' label and a 'Browse...' button. A red asterisk is placed next to the 'Browse...' button.

Review Imported Records

Check the details of the imported records for accuracy.

- 1) Review the "Entered Tax" and the "Calculated Tax" amounts.
- 2) If you need to make any changes, then click "Back to Sales" to restart the process
- 3) If the information is correct, click "Submit Records" to complete the file import process

The screenshot shows the 'SIT Sales Importer' interface with a table of imported records. The table has columns for Sale Date, Model, Year, Make, Identification Number, Purchaser, Sale Type, Price, Entered Tax, and Calculated Tax. A red box with the number '1' is placed over the 'Entered Tax' and 'Calculated Tax' columns. A red box with the number '2' is placed over the 'back to Sales' button. A red box with the number '3' is placed over the 'Submit Records' button.
